Understanding “Who We Are”

Ask Yourself....

- *Why is it I can get along with everyone but him?*
- *How can we see the same situation so differently?*
- *Why can't she just get to the point?*
- *What is the big deal if I show up a few minutes late?*

If you have ever asked yourself any of these questions, you are curious as to why everyone does not react to situations exactly as you do.

True Colors® Personality Analysis helps you understand who you are, why others are different, and how to handle those differences.

TRUE COLORS®

The Communication System

The True Colors® System has been used worldwide with participants of all ages in all genres of life. It is the quickest and easiest to administer of any personality system available.

Participants determine their own personality style after completing a quick test identifying their unique color sequence. Next they brighten their colors interactively and learn more about people who are just like them. Then they discover their differences and how to reframe their perspectives of others. The system is fun, effective, quick and easy to remember and use.

There are endless possibilities for its use as a foundation in any business capacity like:

- Motivational Retreats
- Leadership Development
- Stress Management
- Customer Service
- Team-Building
- Effective Communication
- Dealing with Conflict
